- Further education/training in areas including; Engineering, QHSE Management etc. will be considered an asset.
- Up to two (2) year of experience in a related role (Desirable)
- Or any equivalent combination of qualification and experience.

OTHER

- Working knowledge of equipment servicing, inspection, and basic maintenance practices.
- Experience following written procedures, work instructions, and safety requirements.
- Understanding of workplace health and safety principles and hazard awareness.
- Hands-on experience working in field and/or shop environments.
- Basic mechanical or technical aptitude, with the ability to troubleshoot common issues.
- Ability to work independently and as part of a team in a fast-paced environment.
- Willingness to travel, work flexible hours, or respond to operational demands as required.
- Basic understanding of mechanical, hydraulic, or electrical systems and their operation.
- Experience using hand tools, power tools, and basic test or measurement equipment.
- Familiarity with calibration, inspection intervals, and preventive maintenance activities.
- Ability to lift and/or move up to 50 pounds.

ACCOUNTABILITY

In this role, the Service Technician reports directly to the Operations Supervisor – T&C and will be a support function to the T&C Team Lead.

FUNCTIONS, DUTIES AND RESPONSIBILITIES:

- Assist with the preparation, handling, and setting up of equipment and materials for testing and certification activities.
- Support technicians and inspectors during workshop operations and testing processes.
- Perform basic inspection, cleaning, and maintenance of tools and equipment.
- Ensure test areas, tools, and equipment are organized, labelled, and maintained in a safe condition.
- Follow established procedures, quality requirements, and safety guidelines at all times.
- Record basic job information, test data, and workshop documentation as required.
- Assist with receiving, identification, and storage of customer equipment and materials.
- Prepare equipment for shipment, storage, or return following testing or certification activities.
- Identify and report equipment damage, non-conformances, or safety concerns to supervisors.
- Support continuous improvement by maintaining orderly work practices and assisting with general workshop housekeeping.

Applications must be emailed to operations@beharryrpl.com by Friday 15th May, 2026 or hand delivered directly to the office of the HRM; Point Lisas location.
